COMPANY PROFILE

POWER MACHINES LLC.

POWER MACHINES LLC, DUBAI – AN OVERVIEW

Power Machines LLC was established in 1996. Power Machines LLC is a dynamic and quality driven organization. Though established in the mid 90's, we have successfully completed over 920 access equipment projects in UAE, Qatar and other GCC countries as well.

We are actively involved with the import, manufacturing, assembly, sale, supply, installation, rental and maintenance of building façade and industrial access systems to suit various unique requirements of buildings and industrial access. The equipment and materials are imported from internationally renowned suppliers from Germany, Switzerland, Spain, Belgium & Italy to name a few.

We are staffed with professionals consisting of fully qualified managers, engineers, office staff and technicians.

POWER MACHINES LLC.

MISSION

Our experience and skill enables us to provide safe and reliable Building Maintenance units. We design and manufacture Suspended Access Equipments of all kinds. They include residential, commercial, low rise as well as high-rise buildings.

We use the latest technology and standards, to guarantee equipments suitable to execute maintenance, at exposed locations of any height around the building. We always try to minimize exposure of our units on the roof. The advanced designing of these units ensures that the maintenance of the entire building is catered, hence making it economical for use.

POWER MACHINES LLC.

MANUFACTURING FACILITIES

Our Manufacturing Unit is located at National Industries Park (formerly known as Technopark) in a plot area of 24,190 square meters and a built up area of 5800 square meters which is one of the biggest BMU manufacturing unit in the Middle East.

Using the latest state-of-the-art equipments, Power Machines was one of the first to manufacture building maintenance units in the Middle East. With a highly skilled team of German trained design Engineers and technicians, we can undertake projects of any size and complexity.

POWER MACHINES LLC.

COMMITMENT TO QUALITY & SERVICE

Power Machines LLC in keeping with the policy of continuous improvement of quality had undertaken a “quality improvement drive” in 2001. The organization was restructured and a fully reinforced QA/QC department was created, headed by an engineer to ensure adherence to the commitment to quality and safety. In addition to this the organization has tied up with internationally renowned companies to ensure its objectives.

We are also in the process of completing our audit for ISO 14001 & OHSAS 18001 and we are expecting to be certified by August 2018.

Power Machines LLC is fully geared as a customer oriented organization to meet the specific needs of the customers and to ensure that the customer is always satisfied with the nature and quality of its service.

POWER MACHINES LLC.

DESIGN

We are one of the leading companies in the Middle East, who are capable to design Suspended Access Equipment for Building Maintenance and Window Cleaning in compliance with the European Standard EN 1808.

Our design team is headed by Mr. Hans Vollath from Germany with over 40 years of experience in the field of BMU. He had designed his first BMU in the year 1978.

We commence each job by analyzing the building elevations and relevant roof areas to find the best and most economic solution for the vertical access of the façade. We offer reliable systems, efficient, effective and practically dependable solutions for the standard buildings as well as for the most sophisticated architectural designs. Trust our words, let us be involved from the first idea of a new building until the end. Let us be on your roof.

HIGH RISE TOWERS PROJECTS

POWER MACHINES L.L.C.

HIGH RISE TOWERS ACCOMPLISHMENT

More than the height of the building, it is the complexity of access solutions and systems, which demonstrate the capabilities of the manufacturing company that has been proven; A list of few high rise buildings accomplished is given hereunder with descending height of building.
